

STANDARD PORTOLA FLOOR PLAN
COMPLETE COST BREAKDOWN

The Portola floor plan is a 900 sq. ft., 2 bedroom 1 bathroom home with 118 sq. ft. front porch with no garage. This plan is designed to be the perfect cabin for those weekend or vacation retreats. It is also a great design for a secondary unit in the backyard. Unlike many small homes, the Portola provides interior space for all utilities, including a stacked washer & dryer. The living, dining, and kitchen area feature a vaulted ceiling and an alcove for a wood stove.

#1 THE BASE PRICE FOR CONSTRUCTION PLANS (#1) & LUMBER PACKAGE IS = \$45,100

Pre-Engineered Home Plans are included with the home package and are designed as follows:

- a. Complete set of plans drawn to the California Building Code (CBC), as interpreted by Elk Grove, Ca including the foundation design but excluding the Site Plan, Energy Calculation, Fire Sprinkler Design, Heating & Air Duct Design or any other city/county requirement.
- b. Plans are engineered for light-weight tile, PV solar panels, no snow load, basic 110 mph wind, Exposure "C" and Seismic Zone D.
- c. Plan drafting and engineering costs may increase as a result of local building ordinances or base plan modifications.

STANDARD PORTOLA FLOOR PLAN

COMPLETE COST BREAKDOWN

Most of the items below are what we call the **"HIDDEN COST"**. The hidden costs are controlled by you in the local market. You can choose to do the work yourself or hire trades people to do the work for you. You can choose to install high-end or basic finishing items. This allows you more control of your construction cost, construction time frame and products going into your home. See how you can build your dream home in column #1 as an **"OWNER BUILDER"** for **\$106 a sq. ft.** Or in column #2 as a **"OWNER CONTRACTOR"** for **\$158 a sq. ft.** Column #3 shows you what a **"TURN-KEY"** price could be if you prefer not be involved in the building & decision making. These fees can be even higher depending on who you choose as your general contractor. This price is inclusive of all building material and almost all labor except; building permit, sewer and water hookup fees. You will need to contact your local building department for those fees.

COLUMN #1 - OWNER BUILDER = You are doing all the work + making all of the decisions = saving money.

COLUMN #2 - OWNER CONTRACTOR = You are managing trades people to do the work + help you make decisions = saving money.

COLUMN #3 - TURN-KEY = You high a general contractor to do everything for you & spend a lot more money.
