Greetings :

Thank you for asking for information about CALIF. PRE-CUT HOMES, a licensed dealer for "Pacific Modern Homes, Inc." PMHI, a custom stick home builder.

This privately owned and operated company has packaged thousands of homes in California and around the world since 1968. Their quality panelized wall and roof truss system have all the features you expect in a custom stick built home, but at a fraction of the cost. Included is dry Douglas Fir studded walls, with vinyl dual-pane low E windows with 19/32" T1-11 O.S.B. siding or 3/8" O.S.B. shear. The walls are assembled in the factory environment for precision fit and shipped to your job site for erection by you or your contractor. See the enclosed "package specifications" sheet for all the other standard features.

The package starts at \$12.00 per square foot for garages, and goes up to about \$35.00 per square foot for houses. In our packages, we provide you with the rough shell of your building, walls, windows, hardware, siding, trim, and roof system. Also available are cabins, chalets, duplexes, granny units, additions, apartments, and barns. Whether you want to choose from one of our many standard floor plans, or design your own, we can help. You can save 20% to 50% on your new home by using the P.M.H.I. Building System through CALIF. PRE-CUT HOMES. **Let us show you how!**

If you don't see precisely what you want among our standard floor plans, please use our catalog as a springboard for designing your "Dream Home". More than seventy percent of our packages are not in any of the floor plan that we have available for you to choose from. If you are interested in a plan that is not in our catalog, please ask about our custom design service. The success of our business is designing and building your "New Dream Building".

It has been our pleasure being in this industry since 1976. Over 40 years in the housing industry. We have helped thousands of families throughout California and the West build their "Dream Home" with CALIF. PRE-CUT HOMES. We look forward to helping you and your family. Please feel free to call any of the above phone numbers for further information.

Sincerely,

Dennis A. Foster & Matthew K. Foster

SECONDARY DWELLING - BACKYARD UNIT

GRANNY UNIT - STUDIO

Take a look at our new small backyard unit. It can be built and designed for an aging parent, college student back from school, office, cabana, or a rental unit. Although it is a small building it has great value for you and your family as well as your property.

CPH 200 SQ. FT. REC GRANNY UNIT

This building has 8 foot 2x6 walls. Foundation is designed for a concrete slab. The exterior siding is T1-11. Roof pitch is a 4/12 with a 12" overhang. The building also has barge and fascia, as well as decorative trim around all doors, windows, corners, rakes and eaves. On the inside of this building, all passage doors are 3068 openings. All sliding closet doors are floor to ceiling openings, room for a 40-gallon water heater. The bathroom is designed with a 5' shower/tub combo, standard toilet, and a 24" vanity.

We are a custom building system. If you do not see anything you like, please just ask. We can create and build almost any style of building. Just because we do not have your dream plan, does not mean we cannot create it.

We have priced these units to be free from connecting to any existing utilities. Some backyard units will have their own sewer and water hook ups and some can connect to the existing. There could be some saving when connecting to the existing utilities. Also, we have not added a charge for the building department fees. We recommend that you talk to your local building department for their fees.

* Option utility hookup. Home owners can choose to tie the sewer & water into their existing utilities. If you choose to have separate utility hookup add \$5,500
** The "list" price for blue prints; the drafting & the engineering consists of the floor & foundation plan, elevations, cross section, roof framing plan, title-24, & site plan. If you draft with CPH and build with CPH, we will give you a discount on the plans. The discount for 200 sq. ft. is <\$138>, 250 sq. ft. is <\$173>, 300 sq. ft. is <\$207>, 400 sq. ft. is <\$276>, 500 sq. ft. is <\$345>, 600 sq. ft. is <\$417>, 700 sq. ft. is <\$483>, 800 sq. ft. is <\$552>, 900 sq. ft. is <\$621>, 1,000 sq. ft. is <\$690> & 1,200 sq. ft. is <\$828>.

*** Package cost is the entire shell of the building pre-built in a factory environment. Price includes almost all the wood, walls, windows, roof system, & hardware.

**** Finished cost is a completely finished building. This price can vary because as an owner building you can build your own building or sub it out to local contractors. All the inside finishing are controlled by you in the local market. You can put in basic or even high-end finishing's. Price subject to change 6/16
